Dayspring

Crafted for the purpose of film coating seeds, utilizing exclusively natural and sustainable sources to ensure the longevity of your seed coating needs.

Recommended Uses

Dayspring is a microplastic-free film coating polymer for seeds.

Features & Benefi

- Microplastic-free
- Improved sustainability profile
- Improves seed flow and reduces seed bridging
- Good colour strength, high opacity and shine
- Low dust-off profile

Use	Coating Type			Properties					
	Film	Encrust	Pellet	Binding Capacity	Opacity	Finish	Flow Rating	Dust Control	Colour(s)
Finishing	Yes	-	No	Good	High	Shine	Good	Good	R, G, B

Dayspring

Characteristics

EPA 40CFR180 Compliant	TBC
Storage Temperature	5 – 30°C
Storage Instructions	Closed container, out of direct sunlight, protect from freezing
Shelf Life	12 months when stored correctly
Density	1.00-1.12

Application Guide

Dayspring should be stirred before use as some settling may have occurred during transport and storage. For most applications Dayspring should be diluted before use. Typical application rates are shown in the table below.

Seed Type	Economy Rates			Medium rates			High Quality		
	Dayspring	Water	Total	Dayspring	Water	Total	Dayspring	Water	Total
Soybean	1	3	4	2	2	4	3	1	4
Wheat	3	0	3	3.5	0	3.5	4	0	4
Maize	1.2	5	6.2	4	4	8	7	3	10
Sunflower	8	13	21	9	12	21	10	11	21
Onion	30	30	60	45	20	65	70	10	80
